

PORCELAIN-ON-STEEL SHOWER BASES

PROVEN STRENGTH

Known for its strength and pliability, steel has the perfect mix of properties to build bathtubs that last. Briggs Baths has pressed durable bath fixtures out of steel since 1938!

BRILLIANT AND BEAUTIFUL

The brilliance of porcelain is timeless and classic. Its delicate finish is matched only by its tough performance—the perfect canvas for showcasing tile walls.

PERFECT FOR TUB REPLACEMENT

When your family or lifestyle no longer call for a bathtub, the Pendant Base shower bases are the ideal switch-up. Sizes are perfectly matched to standard tub dimensions, and end-drain locations mean no need to re-plumb. The low threshold offers a blend of clean styling and ease of use.
